Veolia DRAFT Response to Comments.docx

Yes, I left the reference to pg. 11. Thanks again for the edits – they are very helpful. I've incorporated them into the attached version. If you see something that's still off, please let me know.

This just occurred to me- on page 14 in response to comment 6 I filled in the page number of the SOB I thought you were referring to. You likely already figured this out, but I was looking at the old version of the SOB, so you should make sure that the reference is updated with to reflect the page number of the updated SOB.

David,

Here is my marked up version of the Veolia RTC. I looked through it with an eye out for general formatting things as well as the things you asked me to keep an eye out for. Please let me know if you have any questions about anything and feel free to take or leave my comments/suggestions. I will be working today until 5:30 and tomorrow until 3pm, and will be on vacation all of next week. If there is anything else you want me to look at in the document or work on please let me know!

Thanks,

Andrea
